A NEW DIMENSION - PHYSICIAN RECRUITING

You spoke and we listened. In 2011, USPI formed the Physician Strategy Group (PSG) as a direct response from our physician customers to provide services that will help their practices thrive. Today, this includes the ability to recruit highly qualified partners or associates matched to the specific requirements and culture of your practice.

Whether you are looking to enhance your productivity, better serve your patient's needs, or secure the long term viability of your practice, PSG Recruiting can help you find the right fit.

PROVEN EXPERIENCE AND NATIONAL RESOURCES

As a trusted and strategic resource focused on improving the sustainability and growth of the physician's private practice, PSG has a head start on other physician recruiting resources. We fully understand the recruiting challenges and dynamics of the USPI network physicians and are already 100% aligned with your practice's goals.

Our recruiting services are comprehensive; from on-site consultation to candidate screening, interviewing and on-boarding. As needed, we are able to bring the experience, expertise and resources of one of the most successful physician recruiting organizations in the country to our network physicians. Through this strategic partnership, we are able to offer reduced pricing for full-service, retained physician search and decrease the expense that would be paid directly to a national recruiting firm.

Next time you have a big decision to make, like recruiting your next partner or associate, call PSG.

For more information on PSG and its service offerings, please visit us at www.PhysicianStrategyGroup.com or give us a call toll free at **855.207.5230**.
