

INTRODUCING SCHEDULING 24|7

An online patient scheduling tool from USPI's Physician Strategy Group that will help you convert an online consumer to a patient in your practice with the click of a button

PREFERRED PRICING FOR USPI NETWORK PHYSICIANS

USPI's Physician Strategy Group is proud to offer Scheduling 24/7 at preferred rates to our network physicians. In partnership with HealthPost, a robust healthcare technology provider, we have created a value bundle that gives you five times the exposure at half the cost of the leading online scheduling provider.

HERE'S THE DEAL...

You get patient appointment bookings from your practice website, plus*:

- Vitals.com
- BetterDoctor.com
- USNews.com
- HealthPost.com

**This list is subject to change as we grow our partnership.*

One simple price:

- Low rate of \$140.00 per month/per provider.

Your per month/per provider price also includes:

- All technology upgrades and enhancements
- Free tech support for smooth implementation and easy ongoing use
- Waived set up fees per USPI's preferred pricing agreement. Typically a \$150.00 charge

Sign up in a few clicks or one phone call and get Scheduling 24/7 working for you:

- Sign up on our website by going to www.PhysicianStrategyGroup.com/Online-Scheduling Click the 'Sign Up' button and within a few clicks your request will be processed.
- Call USPI's Physician Strategy Group toll free at 855-207-5230 and we will send you the purchased services agreement to sign and return.

IT'S THAT SIMPLE.

Your website works hard to promote your practice.

Let Scheduling 24|7 seal the deal

INTRODUCING SCHEDULING 24|7

An online patient scheduling tool from USPI's Physician Strategy Group that will help you convert an online consumer to a patient in your practice with the click of a button

IMPLEMENTING SCHEDULING 24/7

Implementing Scheduling 24/7 is easy thanks to HealthPost, our online scheduling provider. In addition to USPI's Physician Strategy Group, HealthPost has worked with other healthcare providers and hospital systems across the country to roll out this patient scheduling tool. Their experience is our advantage and will help ensure your implementation of Scheduling 24/7 goes smoothly.

HERE'S HOW IT ROLLS OUT...

Once the purchased services agreement is executed:

- You will get an email confirmation
- Confirmation email will contain a link that will take you into HealthPost's system
- Once in HealthPost system, you will be prompted to fill in key information on the practice and each provider

Data entry into HealthPost system drives everything:

- Most practices select a key person for oversight of the Scheduling 24/7 implementation and related data entry
- Requested data entry will provide all the details a patient needs to know like what appointment times are available, do you accept their insurance, and also more information on the providers like where they went to school, what is their training and background, and other core data points. Data will be utilized on HealthGrades.com, Vitals.com, and HealthPost.com to populate the 'Provider Profile' sections of each website.
- A complete list of all data elements can be found on our website, www.PhysicianStrategyGroup.com/Online-Scheduling under the Pricing and Implementation button. If you'd prefer to call us for the list, please do so at 855-207-5230.

Other small but important steps:

- You will need to track down your Webmaster, as there is a piece of HTML code that will need to be embedded on your practice's website to make the appointment button active.
- Once your button is active, HealthPost will test it out and make sure you are good to go live.
- Orientation for the practice is facilitated by HealthPost and lasts about 15 to 20 minutes.

IT'S THAT SIMPLE.

Your website works hard to promote your practice.

Let Scheduling 24|7 seal the deal
